

Rules for posting scores for handicap purposes in match play events

Note, these are NOT tournament scores

President's Cup & Member/Member Match Play Tournament

For any hole where your next shot was conceded, you should record for that hole what you most likely would have had. Example: You lie 3 on the green 20 feet from the hole and the putt is conceded, your score for posting is 5 as you would most likely 2 putt. Further, if player hits two balls in the water or out-of-bounds, etc. and concedes the hole, he should take his maximum ESC for that hole. For any holes not completed after the match is over, you post par plus any course handicap strokes you receive on those holes (i.e. course handicap, not match handicap). Example: Your match ends on hole 16, and for hole 17 you receive a one-stroke course handicap; therefore your score for hole 17 is recorded as 4.

Round robin

The same rules for creating medal scores as noted above apply, but NINE-HOLE scores should be posted for each match, as these are 9-hole matches. Be sure to indicate on which nine (front or back) the score was shot.
